JUNE 15 FINAL DAY TO PAY CORPORATION INCOME TAX

A further extension of forty-five days for the payment of corporation income taxes is announced by the Bureau of Internal Revenue.
The original extension was from March 15 to May 1. The final date is now June 15.

MD. AND D. C. LABOR FEDERATION MEETS

The annual convention of the Maryland and District of Columbia Federation of Labor is on at Lonaconing, and will continue five days.
First Vice President Coulter, Washington, presided at the opening in the absence of President John H. Ferguson, Baltimore, who will arrive later in the day. Newton James, Washington, is secretary. There are 148 delegates already on the ground, with more to arrive.
The convention was opened with prayer by the Rev. Dr. Andrew Allan, pastor of the First Presbyterian Church, after which the address of welcome was delivered by Postmaster William J. Ford, formerly prominent in the United Mine Workers.

Germany May Repudiate Western Civilization And Woo the Orient

BERLIN, April 15.—The Germans thought two or three months ago the allies would occupy the country and forcibly collect indemnities, if payment was refused. But today there is an idea prevailing in Germany that the allies are sick of war and will not fight again under any provocation.
At the same time, German militarism has recovered sufficiently to stimulate the people's confidence. Perhaps it is not fair to insinuate the German government is crookedly trying to "put something over" on the allies. Maybe it is merely the natural turn of events. However, observers are becoming convinced that the way the German public has come to believe Germany's position regarding peace is improving is the result of one of the cleverest bits of work in the line of diplomatic propaganda that has ever been accomplished.
There is a strong leaning toward Russia in the meantime, not so much officially as on the part of the people. Workmen, Spartacists, and Sovietists are wildly raving for "fraternal" relations with our Russian brothers. The radical parties are on the friendliest terms with the Russian Bolshevik delegations going back and forth periodically.
There is no doubt that the majority prefer western civilization, but they will turn to the east if the west spurns them.

1919 TO BE PEAK YEAR FOR SHIPPING

Steel ships built in American yards this year are expected to total at least 4,000,000 tons. The output, according to Shipping Board officials, will exceed by 700,000 tons the combined construction of both steel and wood bottoms last year, and is expected to make good Chairman Hurley's prediction of a steel merchant marine under the United States flag comparing favorably with the best merchant vessels afloat and capable

of competing with the merchant navies of all nations.
The great production in steel tonnage this year will be the result of the tremendous preparations started under the impetus of war. Making ready for the possibility of a prolongation of hostilities, the Shipping Board developed building ways by the score to offset destruction by submarines.
Many new ships were turned out, but the new yards were unable to demonstrate their capabilities immediately. As the work has been organized and experience gained, the output has grown steadily, with full results becoming apparent only just now.

STUCK MATCH ON HER FACE.
MINNEAPOLIS, April 15.—A woman's face is not the proper place on which to strike a match. Augusta Froeland wants a divorce.

The New Home Treatment for Ugly, Hairy Growths

(Boudoir Secrets)
Here is a simple, yet very effective method for removing hair and freckles from the face, neck and arms. Cover the objectionable hairs with a paste made by mixing some water with a little powdered talc. Leave this on for 2 or 3 minutes, then rub off with the skin and the hairs have vanished. No pain or inconvenience attends this treatment, but results will be certain if you are sure to get real talc.

R. R. BOARD SIGNS 100 OPERATING PACTS

The Railroad Administration today signed ten operating contracts. The roads with which contracts were signed and the annual compensation provided each follow:
Nashville, Chattanooga and St. Louis, \$3,182,080; Kansas City, Mexico and Orient, \$150,000; Detroit and Mackinac, \$310,984; Port Huron Southern, \$110,025; St. Paul Bridge and Terminal, \$67,500; Buffalo Creek railroad, \$409,397; Cumberland and Pennsylvania, \$235,692; Abilene and Southern, \$78,375; and Memphis, Dallas and Gulf, \$28,295.
A co-operative contract also was signed with the Waycross and Southern railroad.

The Victory Liberty loan must be a "triumph of peace."

U. S. FOREST CHIEF URGES NEW POLICY

CHICAGO, April 15.—A national lumber and forest policy was proposed today by Col. H. S. Graves, chief of the United States Forest Service, speaking before the American Lumber Congress.
Colonel Graves advocated a comprehensive program of public aid to the lumber industry, combined with enforcement measures to protect the public interest in future timber supplies.
Despite study of needs of the industry by lumbermen and an increase in its efficiency, Colonel Graves said the great fundamental problems are not being solved. The industry is still unstable, he said, labor conditions are unsatisfactory, forest depletion is of increasing seriousness, and our public forest policy is incomplete.

Points Out Reformation Need.
Colonel Graves pointed out that while the lumber industry has been seeking governmental aid along various lines it has failed to recognize any obligation to provide for forest replacement after cutting.
Forest renewal is of vital interest, Colonel Graves declared, not only to the public, but also to the owners of timberlands.
A comprehensive policy of forest development, he continued, would make for permanent mills, place timber on the market only as it is needed, protect the present resource, classify the lands, encourage agriculture, and secure tree growth on non-agricultural lands.

Would Attract Settlers.
Timberlands, he said, would be placed on a sound basis of management instead of a speculative basis, and industrial plants given a permanent life. The resulting labor conditions would attract men who want to settle down instead of migrate. The public would have timber in abundance at reasonable prices.
Graves would do this by policy that would afford whatever public assistance is needed to make possible conservative handlings of forests. He would then require fire protection, conservative production of lumber, and right methods of removal "with such public direction and control as necessary to realize the aims desired by the public."

EXTRA GUARDS SURROUND DEBS IN W. VA. PRISON

MOUNDSVILLE, W. Va., April 15.—The incarceration of Eugene V. Debs in the West Virginia penitentiary here was marked by the placing of additional guards around the walls by order of J. T. Zerkel, the warden. Additional high-powered electric lights will be installed outside the walls, the warden announced.
Debs began his term as a clerk in the prison hospital. Warden Zerkel said he had intended to assign Debs to the library, but decided he would be the object of too much curiosity there, and gave him the clerkship, the lightest work in the institution, because of his age.

DR. F. W. JORDAN DEAD.
KNOXVILLE, Tenn., April 15.—Dr. Thomas W. Jordan, former dean of the University of Tennessee, died Sunday afternoon at the home of his daughter at Memphis, Va., after being to a telegram received here today. Dr. Jordan was seventy years of age. He was a leader in Methodist Church activities. While dean of Tennessee he was affectionately called "Tommy" by the student body.

Pennsylvania R. R.

Drives Out Colds, Coughs, Bronchial and Catarrhal Troubles Quickly.

HELPS DIGESTION, LUNGS, APPETITE AND BLOOD

The wisdom of taking a tonic in springtime is as old as the hills, and since the recently discovered power of Earle's Hypo-Cod to quickly put the users back on their feet in robust health, physicians, druggists and thousands of users have turned to this splendid preparation in preference to all the older less efficient tonics and system builders.

Investigation has shown the average school child is undernourished and deficient, and yet a bottle or two of Earle's Hypo-Cod, given according to directions, will usually turn that weak, pale, puny child into a robust healthy youngster in from ten days to three weeks.

The draft proved conclusively that even men in their prime are more than apt to be lacking in that strong, virile manhood which is to be envied and jealously guarded. Women the same way. Probably not one-half the government departmental forces are up to par physically. No wonder so many tire easily, are nervous, sleep poorly, eat sparingly, are often troubled with so-called indigestion, gastritis, headaches, constipation, shortness of breath, weak lungs and kindred complaints so apparent to every one. No wonder days are lost from work, pleasures are not enjoyed, health breaks down.
The present day hurry, worry, overeating, lack of exercise and fresh air is bound to cause the most of us to fall below par physically, and no wonder medicine must be relied upon more and more to help nature out and correct the deranged, disordered condition of stomach, nerves, blood and digestion.

What Hypo-Cod Contains.
The genuine Earle's Hypo-Cod, which outshines all other tonics here, contains medicinal elements recommended alike by the profession and public. Malt extract, iron, wine, cherry bark, syrup of fresh cod livers and extracts from fresh cod livers are known the world over as harmless, yet powerful system building elements.

Aged people past middle life need these elements to aid their digestion and blood and nerves and to build up their strength, just as the sick person does after a long siege of sickness. People in their prime who have sapped their strength and vitality by overwork, excesses or strains, long hours and worry need the same thing for these elements are vital when the system has become run down and weakened from any cause.

This explains why people by the thousands in the District of Columbia take this preparation in preference to secret patent medicines. Hypo-Cod is not a patent medicine. It is made by the nationally known Earle Chemical Co. of Wheeling, W. Va., which insures quality and full strength. It is blended so nicely and tastes so nice children are fond of it, and although it contains extracts from fresh cod livers, people with the most delicate stomach are delighted with it.

The glowing tributes paid this preparation have been published in large advertisements almost daily here in the newspapers. The statements of still more Washingtonians appear on the right of this same page. Read what they say, and if you know of some one needing a tonic or if you yourself are not 100 per cent of vigorous and feeling robust, strong and to the drug store and get a bottle. You will be delighted.
(We gladly prepay Hypo-Cod anywhere on receipt of \$1.20. PEOPLE'S DRUG STORES.)

IT KEPT ME ON MY FEET

Declares Washington Lady, Who Had Slight Attack Grippe and Breakdown

HER MOTHER FIRST USED IT WITH FINE RESULTS

"I feel sure that Earle's Hypo-Cod was the only thing that kept me on my feet recently," declared Mrs. J. J. Wright, 1419 Potomac avenue, southeast.
"I was suffering from a general breakdown as well as a slight attack of la grippe. Felt weak, lost my appetite and had pains and numbness in my limbs, due to poor circulation and a weakening sensation and pains in my back and the usual after effects of the grippe."
"My mother had been using Hypo-Cod and found it strengthened her, so I got a bottle of it. It certainly strengthened me considerably, and I intend taking more of it, as I feel sure it was the only thing that kept me on my feet."

The reason I recommend it as I do is because it not only helped me but was well spoken of by our doctor and also by the drug clerk. It is indeed a "Health Builder" and will certainly assist convalescence," continued Mrs. Wright, whose address is given above.
Thousands in a rundown, weakened, nervous and debilitated condition, due to overwork or sickness, have found Earle's Hypo-Cod does exactly as it is claimed. The formula is on the bottle and doctors and druggists recommend it. It is made by the nationally known Earle Chemical Co., Wheeling, W. Va. Read what others say elsewhere on this page of this paper and then get a bottle at the nearest People's Drug Store.
(We gladly prepay Hypo-Cod anywhere receipt \$1.20. PEOPLE'S DRUG STORES, Washington, D. C.)

HUSBAND HAD BAD COLD ON LUNGS

Coughed Great Deal. Pains Across Chest. Was Weak and Worn-Out.

WIFE GETS HYPO-COD NOW FEELS SPLENDID

"My husband had a bad cold and pain in his lungs and coughed a great deal. His appetite was poor and he was weak and rundown terribly when I first saw Hypo-Cod advertised and got a bottle. It did wonders for him," declares Mrs. C. G. Leeman, 413 D street, northeast.
"The first bottle seemed to help him and before it was half gone his cough had stopped. He has now taken several bottles and it has built him up and given him new strength. He now has a good appetite and gives Hypo-Cod the credit for it all. He certainly thinks Earle's Hypo-Cod is a fine medicine," declares Mrs. Leeman, the wife of Mr. Leeman, who for 30 years has been an electrical engineer on the B. & O. R. R.

When one's lungs are weakened and congested with colds, coughs and congestive pains it is wise to take Earle's Hypo-Cod, for this splendid medicine contains a generous amount of extracts from fresh cod livers, together with Syrup of Hypo-cod, Malt and Cherry, which are all good for quickly relieving bronchial, catarrhal and pulmonary troubles.
Read what others in Washington say about this superb remedy and then come down to the store and get a couple of bottles tonight if any member of the family is so troubled. (We prepay Hypo-Cod anywhere on receipt of price, \$1.20; PEOPLE'S DRUG STORES.)

POLICEMAN'S WIFE PRAISES HYPO-COD

Appetite Gone, Terrible Cough, Nerves Bad. Was Weak and Rundown After Attack of "Flu"

"I had an attack of the 'Flu' and it left me with a bad cough and bronchial affection. My appetite was gone and coughing made me so weak I was completely exhausted. My nerves were on edge all the time and I felt miserable. My cough hung on in spite of everything I took for it, and I thought I would have to wear it out until I began taking Earle's Hypo-Cod. This is just grand for such troubles," declared Mrs. E. E. Canfield, 120 8th St. S. E. (wife of Officer Canfield, attached to Precinct No. 6).
"I have taken Earle's Hypo-Cod now," continued this lady, "and the results have been good. Not only has it stopped the cough, but it has built up my strength. I have a good appetite and my nerves are like new again. Honestly, I wouldn't have believed a medicine could cause a change in a person as it has for me. I've gotten my daughter and her husband using it, and I know it will do for them what it has done for me. It is certainly grand. I hope others will try it, for it surely does the work of a tonic."
The above statement from Officer Canfield's wife tells what thousands of people have said. It shows Earle's Hypo-Cod. It drives out the cold, cough, bronchial and catarrhal troubles and builds up the system, fortifies the system against a recurrence of the cold and cough.
Read what it has done for me below and on the left and then get a bottle or two tonight. (We gladly prepay Hypo-Cod anywhere, receipt price, \$1.20. PEOPLE'S DRUG STORES, Washington, D. C.)

A MEDICINE OF WONDERFUL VALUE

Stopped My Cough. Built Me Up. Feel Better Than In Months.

DECLARES WASHINGTON LADY NAME GIVEN BELOW

"I was in a terribly rundown and weakened condition following the 'flu.' I fell off in weight and had a dreadful cough. My appetite was completely gone and I felt miserable indeed. My eyes watered, nose ran and I had a bad catarrhal condition, declared Mrs. M. W. McCartney, 28 Randolph Place.

"Even the neighbors speak about my improvement. However, since I took Earle's Hypo-Cod, it has benefited me greatly. Stopped my cough right away and cured my cold in just a few days. It has given me a good appetite, and built me right up. But the best part of it is that I feel so much better. My strength has returned and all my old-time vigor. My nerves are stronger and I don't have the headaches I used to and on the whole I feel that I have a medicine of wonderful value," declared Mrs. McCartney, whose address in Randolph Place is given above.
If the reader is weak and rundown or not up to par physically or if they know of some one, young or old, who needs a tonic come down to the drug store and get a bottle or two of this remarkable preparation. It is not a patent medicine or secret remedy. The formula appears on each bottle and doctors and druggists recommend it. It is the product of the famous Earle Chemical Co., Wheeling, W. Va., which insures perfect blending and quality.
(We prepay genuine Earle's Hypo-Cod anywhere, receipt price, \$1.20. PEOPLE'S DRUG STORES, Washington, D. C.)
